

MEDIA RELEASE

Taree Regional Clinics and Exhibition Matches Postponed

After speaking to medical experts regarding the interest of public health and safety, Mens Netball NSW (MNNSW) has decided to cancel the events to be held in Taree this coming weekend 21/22 March 2020.

Whilst they will no doubt find a solution to this terrible virus, it would be irresponsible for us to put any of our athletes, officials or the Manning Valley community at risk.

We would like to thank everyone who has supported this Fundraising Event to date and note we have only postponed this trip and we will endeavor to have it in the calendar as soon as possible.

MNNSW will continue to plan for a 2020/2021 Regional Clinic and we are confident this extra time will allow our Association to further develop our program and connections including potential sponsors for an even better event.

Men's Netball NSW is the premier sporting association that provides the opportunity and pathway for young boys and men to play netball across the state. Established in 1985, we have grown to over 300 members competing in our MLeague Competitions as well as those players selected into our NSW State Representative Teams.

For more information please contact Clare McCabe, President MNNSW at this email address or on 0447 572 935.
